

We would like to draw your attention to an initiative of the German Academic Exchange service (DAAD, www.daad.de). This year DAAD offer offers a “Postdoctoral Researchers’ Networking Tour” for postdocs from molecular bioscience who are interested in job opportunities in Germany (academic and non-academic).

The funding includes:

- a practice orientated and diverse programme to suit the requirements of the participants
- coverage of programme related costs in Germany (accommodation, domestic travel, most meals)
- a lump sum travel allowance if such costs are not borne by a third party. This will also be provided if the stay is extended by up to five working days in order to allow for additional professional networking.

The dates are: July 15 2016 (deadline for application) and September 25 to October 1 (Tour).

Detailed information is available at: www.daad.de/postdocnet
